COSTAIN

Construction Report 2025

Lower costs

33%

reduction in the initial cost of construction and the whole life cost of built assets

Faster delivery

50%

reduction in the overall time, from inception to completion, for newbuild and refurbished assets

Lower emissions

50%

reduction in greenhouse gas emissions in the built environment

Improvement in exports

50%

reduction in the trade gap between total exports and total imports for construction products and materials

Water - 2020 Targets

Integration

So what's different

- > ...*from* project *to* programme
- > ...*from* bespoke *to* productisation
- > ...*from* sequential *to* simultaneous
- > ...*from* design then cost *to* design to cost
- > ...*from* construction *to* assembly & productivity
- > ...*from* commission *to* predictable launch
- > ...*from* handover *to* asset optimisation

A fully integrated approach
